

## **Richboro Master Plan Summary**

Residents, business owners, and township officials came out to the township administrative building on February 12<sup>th</sup> to share their thoughts on the future of the village of Richboro.

Bucks County Planning Commission staff members, Mike Roedig and Rich Brahler, were there to guide the meeting's visioning process for the newly-initiated *Richboro Village Master Plan*. Participants were asked to fill out a brief survey and express their thoughts on the village by adding colored dots to display boards, which showed various potential development types and village attributes. Through this process, residents were able to give their opinion on what they felt was most important to the future of Richboro. Participants were also given the opportunity to personally convey their ideas and concerns to the planners, as well as attending township staff and members of the board of supervisors.

After the open house portion of the meeting, Mike and Rich summarized the remaining process of the plan, including the development of a plan vision, an analysis of the village's land use, transportation, and economic environment, and creation of key implementation concepts.

The *Richboro Village Master Plan* is scheduled to be completed by late Summer of 2015.
