NOTICE TO RESIDENTS

This is an important notice from the Northampton, Bucks County, Municipal Authority. Beginning on or about May 11th, 2020 the Authority's contractor, Mr. Rehab, LLC., of Mechanicsburg, PA, will be beginning another phase of maintenance work on the sanitary sewer mains in your area. This work is scheduled to be performed between the hours of 7 am and 5 pm.

The project will require three separate phases. The first will be the cleaning of the sewer mains servicing your neighborhood. As part of this maintenance, the inside of the sewer lines will be flushed and cleaned using a high-pressure nozzle. This work will not affect your sewer service. Although rare, some homes may experience splashing from the toilets or drains, gurgling sounds or sewer odors. As a precaution, we advise that you keep your toilet lids closed when not being used and to flush after every use. If you experience sewer odors in your home, flush all the toilets and pour water into all drains to ensure that the traps are full. If water appears to be spilled around the toilet, please except our apologies as we perform this important sewer maintenance work. The water can simply be wiped up as it is clean water that was stored in the trap.

The second phase of the project will be the lining of the selected sewer mains. You will receive another notice within the next few weeks and prior to this work beginning with additional information regarding the second phase of the project.

The third phase includes final inspections and documentation of the completed work.

At times our work may temporarily limit normal access to your driveway or roadway. If your access is temporarily blocked, please see any crew member on-site and they will assist you.

We appreciate your cooperation during this work.
